

## Faculty of Economics and Political Science

### Corporate Social Responsibility

#### Information :

**Course Code :** ECO 309

**Level :** Undergraduate

**Course Hours :** 3.00- Hours

**Department :** Department of Economics

#### Area Of Study :

The main goal of this course is acquainting students with the notion of corporate social responsibility (CSR) and its evolution as a concept, along with other concepts related to it. It highlights the different theories explaining the concept, the main objectives of CSR, as well as the different types of CSR initiatives. It pinpoints the link between CSR practices and sustainable development. In addition, students are presented with different case studies of businesses' CSR practices to evaluate their impact on the society.

#### Course Goals:

- ✓ Define Corporate Social Responsibility and how it developed.
- ✓ Pinpoint the arguments for and against CSR.
- ✓ Focus on multiple theories explaining CSR.
- ✓ Recognize the benefits of CSR to business and society
- ✓ Explore the relation between CSR and sustainable development.
- ✓ Familiarize students with international organizations and movements supporting CSR
- ✓ Debate different case studies of business CSR practices and their impact on the surrounding environment.

#### Description :

The main goal of this course is acquainting students with the notion of corporate social responsibility (CSR) and its evolution as a concept, along with other concepts related to it. It highlights the different theories explaining the concept, the main objectives of CSR, as well as the different types of CSR initiatives. It pinpoints the link between CSR practices and sustainable development. In addition, students are presented with different case studies of corporations' CSR practices to evaluate their impact on the society.
