

Faculty of Oral & Dental Medicine

Clinical Removable Prosthodontics

Information :

Course Code : RPROS 414 **Level :** Undergraduate **Course Hours :** 2.00- Hours

Department : Faculty of Oral & Dental Medicine

Instructor Information :

Title	Name	Office hours
Associate Professor	Aya Mohamed Fawzy Hafez Ibrahim	
Lecturer	Ayman Sharif Mahmoud Fateen	
Assistant Lecturer	Diaa Mohamed Farid Mohamed Zahran	
Teaching Assistant	Mariam Magdy Moris Saeed	

Area Of Study :

The student will be able to recognize the objectives of removable partial denture, develop the treatment plan and acquiring skill of management of partially edentulous patient.

Description :

Diagnosis, Principles of partial denture design & problems, Impression and mouth preparation, Final impression, Metal try in, Jaw relation, Partial denture try in of artificial teeth, Initial placement and complaints, Revision

Course outcomes :

a. Knowledge and Understanding: :

1 -	Recognize objectives of partial denture prosthodontics
2 -	Describe the different clinical steps for partial dentures construction
3 -	Describe mouth preparation procedures and surveying
4 -	Describe different impression techniques for partially edentulous patient
5 -	Recognize jaw relation in partially edentulous cases
6 -	List the clinical steps for metal try in
7 -	Identify patient's complaints after denture insertion and describe effective

b. Intellectual Skills: :

1 -	Interpret normal and abnormal partially edentulous anatomy and its relationship to partial denture construction
2 -	Assess the typical problems that occur during partial denture construction.
3 -	Design appropriate partial denture framework
4 -	Make decisions regarding common technical discrepancies and faults using appropriate problem solving skills

5 -	Distinguish patient complains, develop effective measures for their treatment and how to avoid harmful effects of partial denture
c. Professional and Practical Skills: :	
1 -	Perform thorough clinical examination both extra and intra oral as well as general assessment of the patient conditions
2 -	Use of the surveyor in fabrication of partial dentures
3 -	Perform all clinical steps required to fabricate a partial dentures
d. General and Transferable Skills: :	
1 -	demonstrate sensitivity and attitude in patient care particularly toward elderly patients
2 -	display appropriate professional communication skills with patients, colleagues and the rest of dental team and other relevant team or group

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Diagnosis			
Principles of partial denture design& problems			
Impression and mouth preparation			
Final impression			
Metal try in			
Jaw relation			
Partial denture try in of artificial teeth			
Initial placement and complaints			
Revision			

Teaching And Learning Methodologies :

Lectures
Clinical training
Requirements
Demonstration

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
final written exam	25.00		
midterm exam	25.00		
oral exam	10.00		
practical exam	15.00		
Requirements	25.00		

Course Notes :

department notes
