

Faculty of Engineering & Technology
Elective 6 \ Urban Upgrading & Management

Information :

Course Code : ARC E06 **Level :** Undergraduate **Course Hours :** 3.00- Hours

Department : Department of Architectural Engineering

Instructor Information :

Title	Name	Office hours
Professor	YEHYA MOHAMED MOHAMED SERAG	7
Assistant Lecturer	AYA TAREK IBRAHEM ABDELHADY AHMED	

Area Of Study :

1. Understand what is meant by ghost towns and urban ghosts and their causes
2. Understand the causes leading to shrinking of cities and how to deal with them
3. Learn the concept of urban gaps in terms of vacant housing and misused lands
4. Understand what is meant by urban decay and how to ameliorate it.
5. Learn the meaning of Urbicide and the different post conflict reconstruction strategies.
6. Learn the different strategies of inner city regeneration and upgrading.
7. Understand the city management mechanism in Egypt, its positive aspects and drawbacks.

Description :

This course identifies the different challenges that might face cities and cause different symptoms of deterioration within. The course identifies diverse concepts that lead to deterioration and urban decay, as well as shrinkage of cities. The means of upgrading and revitalization of these cities are discussed explaining how the upgrading process is done in real life. An overview concerning how the city management is done in the administrative authorities in the cities of Egypt and how it should be done, is discussed as well.

Course outcomes :

a. Knowledge and Understanding: :

1 -	Identify the Ghost towns, shrinking cities and urban decay
2 -	Illustrate the causes that led to the urban decay and decline
3 -	Propose the suitable intervention actions to resolve problems.
4 -	Investigate conventional approaches of urban regeneration and upgrading
5 -	Define the meaning of Urbicide and post conflict reconstruction
6 -	Explain the city management mechanism in Egypt.

b. Intellectual Skills: :

1 -	b.1. Compare between a vibrant city and a decaying city
2 -	b.2. Propose solutions to the inner city decay problems.
3 -	b.3. Formulate possible scenarios for post conflict reconstruction
4 -	b.4. Deduce the drawbacks within the city management system.

c. Professional and Practical Skills: :

1 -	c1. Use proper presentation techniques for his/her final proposal.
2 -	c2. Propose realistic strategies for upgrading and reconstruction of cities.
3 -	c3. Identify the related stakeholders in the upgrading projects.
4 -	c4. Apply the learned elements on realistic projects.

d. General and Transferable Skills: :

1 -	d1. Expressing his/her ideas by visual, graphic, written and verbal means
2 -	d2. Discuss and defend his/her ideas.
3 -	d3. Managing time and meet deadlines.

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Introduction to the Course Raison d'être and Ghost Towns and Urban Ghosts	4	2	2
First assignment presentation: Examples on urban ghosts and Ghost towns	4	2	2
Shrinking cities and how to deal with them	4	2	2
Second assignment presentation: Examples on Shrinking cities	4	2	2
Urbicide and the deliberate destruction of cities	4	2	2
Post-conflict reconstruction strategies and their implementation	4	2	2
Urban Gaps in Egyptian cities	4	2	2
Urban Decay and core city deterioration	4	2	2
Midterm presentations: on related issues	4	2	2
How to deal with urban decay?	4	2	2
Gentrification and reverse gentrification Inner city regeneration strategies	4	2	2
City Management in Egypt, a critical review Development projects in Egypt between planning and implementation.	4	2	2
Final presentation and end work	4	2	2

Teaching And Learning Methodologies :

Lecture
Public Group Discussion
Search for Data (Self-study)
Research Presentation

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
Assignments	25.00		
First mid-term exam	25.00		
participation	10.00		
second mid-term	25.00
