

Faculty of Economics and Political Science

Feasibility Studies

Information :

Course Code : ECO 403

Level : Undergraduate

Course Hours : 3.00- Hours

Department : Department of Economics

Instructor Information :

Title	Name	Office hours
Professor	Azza Mohamed Hegazy Shehata	

Area Of Study :

This course provides students with the knowledge needed for taking investment decisions. It is classified into three parts: the first part is concerned with the market structure and different marketing strategies. The second part deals with technical analysis. The third part deals with financial/economic analysis.

The course further elaborates many investment related concepts: the size and scope of the industry, market segments, projects life-cycle, availability of production facilities. How to: forecast demand, estimate total capital and credit requirements, forecast costs and returns of various alternatives and how the project could generate profits.

Course Goals:

• Discuss and apply key concepts of investment decisions, including investment criteria and valuation of costs and benefits over time.

• Turn academic knowledge and skills into practice in developing new business.

• Assess the financial risk associated with investment decisions.

Description :

This course provides students with the knowledge needed for taking investment decisions. It is classified into three parts: The first part is concerned with the market structure and different marketing strategies. The second part deals with technical analysis, The third part deals with financial/economic analysis.

The course further elaborates many investment related concepts: the size and scope of the industry, market segments, projects life-cycle, availability of production facilities. How to: forecast demand, estimate total capital and credit requirements, forecast costs and returns of various alternatives and how the project could generate profits.

Course outcomes :

a. Knowledge and Understanding: :

1 -	Outline critical social and environmental issues concerning investing in projects and tools for their analysis.
2 -	Identify and compare the investment opportunities of different projects.
3 -	Relate key aspects of monitoring and evaluation of project design and management.
4 -	Describe the national impact of the project on the economy.

b. Intellectual Skills: :

1 -	Identify the importance of conducting a feasibility study prior to any major investment project such as establishing a new project, expansion of existing project, and replacements of major machinery and equipment.
2 -	Relate decisions concerning projects to the wider micro and macroeconomic policy analysis.

c. Professional and Practical Skills: :

1 -	Prepare a research project on appraising investment decisions.
2 -	Appraise financial statements.
3 -	Formulate financial analysis of projects.
4 -	Devise economic analysis of projects.
5 -	Compare and contrast between economic and financial outcomes of the projects.
6 -	Organize demand and marketing studies.
7 -	Construct environmental analysis.
8 -	Link technical studies to demand and market studies.

d. General and Transferable Skills: :

1 -	Experience with conceptual frameworks effective for problem solving and decision making.
2 -	Acquire analytical reasoning skills, numeric and clear effective communication skills.
3 -	Test the ability of students to work under pressure and as part of a team.

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Introductory lecture and course outline - Feasibility Study: Basic Concepts and Principles	3	1	
Project Life Cycle and Pre-Investment Studies	6	2	
Demand and Marketing Analysis	3	1	
Technical Studies	3	1	
Environmental Studies	3	1	
Project Planning	3	1	
Sources of Finance	3	1	
Midterm Exam		1	
Financial Analysis: 1-Financial Planning and Projections 2-Financial Statements 3-Financial Measures	6	2	
Economic Analysis: 1-Economic Statements 2-Economic Measures	6	2	
Risk and What If Analysis	3	1	
Final Exam		1	

Teaching And Learning Methodologies :

Presentations
Simulations
Group discussion
Research Paper

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
Course Work (Attendance, Participation, Assignments, Quizzes, Research Paperó D	30.00		To assess understanding.
Final Exam	40.00	15	To assess knowledge and intellectual skills.
Midterm Exam	30.00	9	To assess professional skills
