

Faculty of Engineering & Technology

Software Engineering

Information :					
Course Code : EED462	Level	•	Undergraduate	Course Hours :	3.00- Hours
Department : computer					
Description :					
Ideas and techniques for designing. Developing and modifying large software systems.					

Function-oriented and object-oriented modular design techniques (designing for re-use and maintainability). Specification and documentation. Verification and validation. Cost and quality metrics and estimation. Project team organization and management. Students will work in teams on a substantial programming project.
